Foam Clay®

Foam Clay®

A modelling clay with small polystyrene beads, which makes the texture simple and decorative to use for covering all sorts of items. Roll small balls of Foam Clay, press them firmly onto the item and spread evenly with your fingers. Foam Clay dries with a firm and hard surface.

CE

Foam Clay can also be rolled out on a plastic pocket and left to dry, after which a design can be punched out or cut out. This design can be attached with a fresh blob of Foam Clay.

- ✓ Super soft
- ✓ No smudging
- ✓ Excellent adhesion

CE

Psst...

Store Foam Clay in an air-tight container. If the clay dries up, knead it thoroughly by hand with a bit of water to return its elasticity.
